

# A day in the life of...the East Church

05 July 2009

Andy Newcombe showing how to apply a lime harl at the introductory lime course for builders and architects

The breathable membrane goes on below the reclaimed Ballachulish slates.

The slates are dressed before re-use

Benny suffering from removing the gypsum plaster that covered the old stove flue

Practising pinning and pointing on the lime course

Anya puts new lime plaster on the walls
