

Church Fabric Workshop

from the Scottish Redundant Churches Trust
and Historic Scotland

**To be held in Cromarty, Ross &
Cromarty on Tuesday 24 March**

This **Free** workshop will use the expertise of Historic Scotland and practical experience of work at the East Church, Cromarty, to give sound advice on how to keep your church in good repair.

Roger Curtis, from Historic Scotland's Technical Conservation Group, will talk about what to look out for in your church and how to prevent the need for costly repairs. In the afternoon Roger will give tips on conserving energy in your church; perhaps even keeping you a bit warmer in the process!

There will be a tour of the East Church to show what's happening there, church fabric details to look out for - and what happens when you neglect them. There'll also be opportunities to look at some of the resources available, time for questions and answers, and for some of the Cromarty Training Centre's home cooked food.

The day starts with tea, coffee and introductions at 10.00, and talks start at 10.30. There will be lunch for everyone at the training centre and we'll finish with tea and coffee at 3pm.

To register for the workshop either email info@eastchurchcromarty.co.uk, write to David Alston or Caroline Vawdrey at 51 Church St, Cromarty, IV11 8JU or ring them on 01381 600243.

The Cromarty Centre is in the Old Brewery in Burnside Place. Follow the High Street to the shore and along the coast, for 200 yards. There is a car park opposite the building.
